

Please do not allow FPFM stations to take priority over current FM translator stations. Our family listens to K-Love Radio on 90.3 FM in Findlay OH. K-Love is the only radio station that our family can enjoy together. Our children listen and are not exposed to bad language or discussions that are not fit for their ears. They learn positive lessons. My husband and I both agree on the music they play. It is wonderful to have commercial free radio. We do not have a lot of money, but we support K-Love financially because we believe in it. K-Love is vital to our local community. Without it we would not be able to listen to the radio without concern over what our children will hear. My friends and I all listen to K-Love. It bonds us together and bonds us to others accross the country and world. In addition when we travel we can hear K-Love in certain areas even when we are not home. Without K-Love we would not agree on the type of music to play. We have been without K-Love on occasion while traveling or during bad weather and have missed it terribly. The service K-love and other FM Translators provide is in the public interest because we need good quality family programming. K-Love is vital to our lifestyle and our family. PLEASE do not take our K-Love away. I can not say this strong enough, WE NEED K-LOVE!!!!
